

Bring learning to life through the Conservatory's new Virtual Exploration programs. Conservatory Educators will facilitate each program live via Zoom. Zoom sessions will include live discussions, video content and interactive elements. Programs also include a wraparound curriculum with pre ("Getting Ready") and post ("Keep Exploring") activities. Programs are designed to complement Ohio Department of Education Learning Standards in Life, Earth and Physical Science and Fine Arts.

**K-12 programs are \$150 per connection for a 45 minute program.
PreK programs are \$100 per connection for a 30 minute program.**

**Contact Jessie Mace-Froehlich, 614.715.8038
or schoolprograms@fpconservatory.org for information and reservations.**

*Education programs are subject to the 5% Columbus Arts and Culture Fee.

Grades K-3

Native Pollinators

Sunlight, water, air, shelter and food are the basic needs of living things. Come explore the Conservatory's gardens and learn first-hand what pollinators need to survive. Also, learn about ways that you can contribute to their survival.

Grades 4 & 5

Native Pollinators

Learn about pollinator habitats and explore the physical and behavioral traits that allow these species to thrive. Discover the importance of pollinators to humans.

The Nature of Glass

Investigate the material of glass and learn the science behind glassblowing. Fuse the science with art as we analyze artworks by Dale Chihuly in the Conservatory's Chihuly collection.

Grades 6-12

The Nature of Glass

Investigate the material of glass and learn the science behind glassblowing. Fuse the science with art as we analyze artworks by Dale Chihuly in the Conservatory's Chihuly collection.

Outreach Programs

Franklin Park Conservatory educators will bring interactive programs to your school! Available programs are listed on the Conservatory's Outreach Program Guide.
